STORY

- Good evening to all my fellow interns and the executives on board! Group 13 is finally here to entertain you!
- Tonight you must be really exhausted so far to maybe revive the softest and gentlest side of humanity by fixing what generates various emotions of all human beings, or defend your country from the attack of aliens who covet the GPA of those graduate students, or maybe even make Silverfocs great again with dedicated investigation into the traitor who revealed the secret of our algorithm to Fudan Inc.
- You′ ve all have done quite an amazing job which got yourself off the hook and might benefit many at the same time, but your duty tonight is yet to be fulfilled. There′ s far more people needing you right now than those in this company or school. And the show has just begun…
- Now, your code name is Kangyu and you are the 114514th space warrior in our secretive scheme to save the universe. But Shhh, don′ t tell the person next to you, it′ s a secret.
- Whenever you traveled to just now, let′ s turn our timer shaft to roughly 50 years from now. Finally, you are heading towards the distant magical 2077, when the advance of technologies is greater than ever, so is the aerospace industry…

- But there are actually an excessive amount of space junks and debris of deserted space stations all floating in the Asteroid Belt. Apparently, the universe has been in a state of overload and the waste′ s disposal has been overlooked since the human beings started to excessively exploit the space resources and perform space station experiments as a trend from 2050s.
- Unless the current situation is changed as soon as possible, not only will the planet Earth suffer a higher chance of being attacked by one of the larger pieces of spcaeship debris floating near the Earth’s orbit, but, even worse, we as human beings will be deprived of the most basic source of fantasy when we witness the once starry heaven gradually fading. And the renowned Halley’s comet originally expected to occur near 2137 might even drift away from us ever since. If so, the damage on the entire human race is UTTERLY IMMEASURABLE.
- Nevertheless, there′ s still the last pure land in Shanghai, China, the Pearl of the East, which is exactly where Cosmical Pulse who made the great spacecraft VG is based in.

- 〝Welcome to our mission 〝The Green Warrior〞 A middle-aged elegant woman and a man of similar age but with a little accent and look exceedingly wise flashed before you, 〝Please call us Mr. and Mrs C. We are the founders of *Cosmical Pulse*, Our company′ s goal is to make the world a better place by conducting some amazing work outside THIS world. Yes! You are the chosen one, Kangyu, to guard to last chances o the next appearance of Halley′ s comet!〞
- 〝Now, Will you please step into our Spaceship VG and embark on this magnificent and utterly critical journey to diagnose the problem with the pulse of the boundless cosmos with us?〞 asked Mr. and Mrs. C.
- In the first place, where does all of those space junk come from? You want to find out and alter the status quo. So the answer is, without hesitation, a resounding yes.
- Kangyu, your job is to clean all the redundant space junk. Mr. And Mrs. C expects highly of you and you have large shoes to fill. Baby let′ s get the game begin! Good luck with that, because you are going to need it.

CONTROLLING

Purchasing skills:

“Q” for purchasing spaceship speed up

“E” for purchasing spaceship length increment

“↑” for purchasing collector’s upward acceleration

“↓” for purchasing collector’s downward acceleration

Web interaction:

“S” for starting or restarting game

Pause & Continue:

“SPACE” for continuing the gameBasic also for switching story pages

Moving of spaceship:

“←” for moving leftwards;

“→”for moving rightwards;

MAIN PURPOSE

- Making the collector approach the rubbish to clear the rubbishes and make the space clear again !
- Besides, the more rubbish you collect, the more profitable the mission will be for the company. It can buy update of your skills.
- Keep the collector within the spaceship’s control ! Otherwise, you have to spend your money to buy a new collector .
- Preventing the collector and the base from running out of money ! If so, your company Cosmical Pulse will go bankrupt and the mission will FAIL !
- Reviving the last chances for the return of Halley’s Comet and reserve the deepest fantasy for human beings when they gaze at the sky full of stars in awe and all the best wishes for their loved ones.

SCORING&MONEY

Scoring:

- Score plus ONE for each harvest of a piece of space trash
- Gain as more score as you can !

Money:

- Obtaining one unit of money by cleaning one piece of rubbish
- Used to unlock new skills and a new collector when the old one is gone
- Lose the game when money reaches zero

SKILLS

1. Purchase upgrade for spaceship's engine
   - Improve 1 in speed each time
   - Last permanently
2. Purchase extra length of spaceship
   - Longer 10 in length each time
   - Last permanently
3. Accelerate the collector upwards of downwards by rocket boosting
   - Adding an acceleration upwards or downwards
   - Appear when pressing the key for purchasing it

FEATURE

1. Auto pause when the player leave the game page.

2. Collector, spaceship all can move from one side of the screen to another, which express the concept of the orbit of spaceship as a circle.

3.Trash appears randomly and dynamically, in order to give expression to the realistic environment of space.

4.The collector’s trajectory simulates the trajectory under gravitation on the near-earth orbit.

5.The essential simplicity of this game’s core elements lowers the requirments of hardware and software, which facilitates players EVEN in less-developed to get to know about the universe and the global environmental issue on their terminals.

6. Simplicity + Informative = DELICATE

PITCH DIAGRAM

Cosmical Pulse 2077

A infinite game with different difficulty levels according to your score. Enable one or two player play under a grand story background. Feature a skill system which is obtained with the moeny player gained from games. The concept of a outer space appear throughout the game, giving a sense of substitution.

Sensing the cosmical pulse like in the traditional Chinese medicine and Curing the patient after giving your diagnosis and subscription.Enjoy the destroy of rubbish and curing the space as a hero of the man kind, infinitely. Fight your own way to obtain better skills.

High Concept

- **Aesthetic** — minimalism graphics with cartoon features
- **Graphic Assets** — mostly vector diagrams and photos of the space from the internet
- **Other Assets (music, fonts...)** — music mainly instrumental, from the internet

Assets

Experience

Game Play

- **Base** — sending out collector and collect rubbish back to earth, gain money from collecting rubbish and improve skills
- **Highlight** — Gaining skills. Coneecting right and left of the screen. Random and changing rubbish appearance
- **Trend** — More skills, as well as higher difficulty as game progress
- **Reward** — Money and skills as well as sense of accomplishment

Story

- **Conflict Type** — Man vs Cosmos
- **Player Position** — Player is a man whose mission is clear the space trash from the earth base, using a high technic collector collecting trash.Suspending alone in the outer space. Tied to a spaceship and bouncing between the launching pad and the floating objects to eliminate all different kinds space junk.
- **Narrative** — You, as the green warrior who works for Cosmical Pulse, are the only chance to ensure the next appearance of Halley's comet due to the disturbance on the environment in the outer space by human behaviors. Your only assistance is the spaceship VG that attaches you to the launching panel and aims you at the pieces of space trash to clear them away. The tasks will increase in difficulty as the amount of trash decreases thus the rest of them are harder to hit accurately. But meanwhile, you have more autonomy over your trajectory towards the targets and the efficiency of the launching in each attack.
- **Implications** — When player collects near space trash, he goes much more far in the spcae to clear all the trashes, at last he can make the space clear again.The more space trash got eliminated, the more likely people on Planet Earth retain the escape from real life and their own starry heaven to look up to.If you "died", Cosmical Pulse would Have to return to their base in Shanghai to pick up another Green Warrior to finish up your mission Which could be a terrible waste of time.

Technical Aspects

- **Space of Action** — 1D
- **Space of Position** — 0D
- **Action/Frame** — 2-3
- **Supported Input** — Keyboard Only

Marketing

- **Target Audience** — space enthusiast,heroic lover
- **Main Appeal** — concept of saving space
- **Selling Points** — Exciting feeling of hitting trashs and saving earth; Riveting story line; Arousal of the player's empathy with humanity's fantasy and a global issue; Curiosity upon the unknown in the universe and the troubles it bring about; The sense of accomplishment giving by game skills available to the players as they progress through the mission.
- **Competitors**
  - No Man's Sky
  - HALO
  - STARWAR
